

# Summary of Findings McKeel Academy

This worksheet can be used to create narrative descriptions to post alongside sections from **Worksheet 3: Identifying Connections between Policy and Practice**. The purpose of these narratives is to describe the district's progress toward meeting their wellness goals. Not all districts will have information to share in all four sections.

## SECTION 1: STRONG POLICIES AND ALIGNED PRACTICES

Strengths found on both policy and implementation included promoting student wellness and setting goals for nutritional education. Time allowed for meals and accessible water. Smart snack compliant and encouraging use of smart snacks in fund raising. Encourages staff and students to an active lifestyle both on and off campus. Wellness policy scored well on implementation and evaluation but needs to be improved on updating.

## SECTION 2: CREATE PRACTICE IMPLEMENTATION PLAN

Assessment has determined that more implementation is needed within nutritional education. Cafeteria needs to work more closely with classroom instructors. Wellness policy needs to be clearer about NSLP program and free/reduced application process.

## SECTION 3: UPDATE POLICIES

Wellness policy should be updated to include nutritional education along with the school food service. USDA nutritional standards and the School Breakfast Program should be updated and made clearer. Update policy to reflect stricter rules regarding before and after school foods. Policy should make clear no caffeinated beverages are sold on site. Physical education exemptions and substitutions should be outlined in policy as well as qualifications for P.E. teachers. Make marketing available for all compliant foods sold in cafeteria and anywhere else on campus if applicable.
